Located in beautiful Marlborough, Massachusetts, Microform Models is a family owned business, started in 1947.

Originally known as W.H. Vollheim, Inc., the company name was changed to Microform Models, Inc. in 1960.

We are the oldest continually operated scale model parts supplier in the United States. Over the course of these many years we have built a business that we are proud of.

It is a business that our customers and competitors world wide have come to admire and one that they can rely on for quality and service.

Because we focus on quality products and personal service, many of our customers have been with us for over 45 years. We will continue our high level commitment to our customers.

We like to hear from our customers and appreciate any feedback so we can serve you better.

We look forward to working with you.

Hours of Operation:

Monday through Friday,

8:00 AM to 4:30 PM, Eastern Time.

We invite you to leave orders, other messages and faxes on our answering/fax machine outside of standard business hours.

Products:

MICROFORM MODELS uses tin-based alloys to create miniature, exact scale model parts for Architects, Engineers, Scale Model Builders, Interior Designers and Set Designers.

This Catalog contains over 1,800 items, shown ACTUAL SIZE, including motor vehicles, boats, trains, aircraft, figures, houses, trees, railings, furniture, office machines, street lighting and columns. Printed catalogs may be purchased for \$ 14.00, or the 75mb PDF may be downloaded from our website at no charge. This catalog supersedes all previous editions.

We offer our products in 20 different scales to suit your individual needs. We are always expanding our product line of scale model parts, so if you don't see what you need . . . just ask! Our tree armatures are not intended to be in any one scale; a tree which is 10 feet tall in 1/4" = 1.0' would be 20 feet tall in 1/8" = 1/0'. All tree armatures are made of malleable alloy, which can be bent into any desired shape.

Payment and Shipping:
